Mirror Adjustment Feature

BONANZA

The bedroom sensation of the year is the Bassett "BONANZA" bedroom group. "BONANZA" will continue to be a favorite for a long time to come, for it is the type of furniture and value that will live on for many years. Its dignified simplicity is achieved through straight lines and rounded wood mouldings, the latter serving for design and drawer pulls. It is a true expression of design arrived through function, for the drawer pulls are decorative as well as useful.

"BONANZA" is made in two veneers and blended hardwood combinations, AMERICAN WALNUT and African Mahogany. In Walnut, "BONANZA" is finished in "REGENCY" Walnut; in Mahogany the finish is "GALA" Mahogany. Both of the "BONANZA" finishes are in the warm brown tones and will live and blend harmoniously in any modern or contemporary setting.

The "BONANZA" pieces are all of generous sizes and specifications and will meet the desires of those who are looking for outstanding American Contemporary furniture.

The tilting mirrors are of Pittsburgh plate glass. Drawer interiors are coated with Bassett's exclusive Perma-Sheen®. All case pieces and beds are coated with special duPont Dulux® furniture finish.
